AWS Applications Developer with experience developing Python and Java applications, serverless solutions, and automated deployment pipelines. Improves application performance and reliability through testing, code review, and cross-functional collaboration.

Technical Skills

Development: Python, Java, JavaScript, Node.js, TypeScript, HTML, CSS; Git; CI/CD; unit testing

Cloud and infrastructure: AWS Lambda, API Gateway, S3, RDS, EC2, ECS, EKS, IAM; AWS CDK, CloudFormation, Terraform, Ansible, Docker; Azure

Databases and collaboration: PostgreSQL, MySQL; Jira, Confluence, ServiceNow; technical documentation

Professional Experience

AWS Applications Developer | LanceSoft, Inc

February 2026 – Present | Los Angeles, CA

Design and develop AWS cloud-native applications using Python and Java, improving system performance by approximately 20%.

Develop Infrastructure as Code (IaC) using AWS CDK, CloudFormation, and Terraform to enable automated and repeatable deployments.

Build serverless and event-driven solutions using AWS Lambda, API Gateway, S3, and RDS, reducing infrastructure overhead by approximately 30%.

AWS Developer | University of California Office of the President

August 2023 – February 2026 | Oakland, CA

Led source code management and automated deployment pipelines, reducing deployment times by 20% through advanced CI/CD practices.

Engineered and optimized AWS-based Java/Python applications using CDK, Lambda, CloudFormation, S3, ECS, and EC2, resulting in a 30% improvement in application performance and a 25% reduction in bug reports.

Conducted rigorous unit testing and enforced test plan adherence, decreasing critical post-deployment issues by 40%.

IT Assistant | California State University, Northridge

April 2022 – May 2023 | Los Angeles, CA

Automated deployment of 20+ EC2 instances with Terraform and Ansible, cutting manual configuration time by 75% and boosting team productivity by 30%.

Managed AWS resources (Security Groups, EC2, S3, IAM) using Terraform, supporting secure and reliable cloud operations.

Served as code reviewer for 50+ cloud deployments, streamlining infrastructure provisioning and reducing errors.

Education and Certifications

California State University, Northridge | BS in Computer Information Technology | Honors Program, Dean's List

AWS Certified Solutions Architect – Associate | AWS Certified Cloud Practitioner | AWS Certified AI Practitioner
